JANESVILLE, MONDAY, JUNE 9.

### SILVER LEGISLATION.

It is more than likely that the silver bill which passed the house on Saturday will settle the silver question for the present, as all its provisions were agreed upon by the caucus. Party lines were pretty closely drawn on the vote, all the democrats but one voting against it, and all the republicans but eight voting for it.

There is considerable politics in the bill, as well as a good deal of silver. The silver part of it is so substance that the secretary of the treasury shall purchase \$4,500,000 worth of silver each month at the market price, not exceeding one dollar for 311.25-100 grains of pure silver, and to issue in payment for such purchase of silver bullion treasury notes of the United States, to be prepared by the secretary of the treasury, in such form and of such denominations not less than \$1, nor more than \$10,000, as may be prescribed. The holder of these notes may demand their redemption at any time he pleases, either in coin or in bullion silver at the market value.

It does not require a man who can recite a stone wall to see the object of this bill. It is made for the special benefit of the silver men in the silver state, the same as the 15 per cent duty on hides was for the special benefit of Phil. Armour and other cattle barons. By this bill, the silver men will be in luck. It will give them special protection, and this is what they want. It will likewise make the Pacific states republican, and this is why every democrat but one "Jesse Fisherman" voted against it.

This bill will give the backbone of President Harrison a severe test, should it be concurred in by the senate. But it won't be safe to say that he will sign it.

When the devil gets a man into trouble he never stays by him long enough to get him out again. He is the most unreliable villain anybody can tie to. Not long ago, Dan Allen, a farmer of fortune, of Clark county in this state, became possessed of the devil. He had a wife of his own, but fell in love with another man's wife, Mrs. Wright, and the love was reciprocated. Then Mr. Allen and Mrs. Wright decided to kill Mrs. Allen and Mr. Wright, and the deed was accomplished. Allen was tried, and Mrs. Wright turning state's evidence, he was convicted, but made his escape. After two years of wandering, he was re-arrested, and has been sentenced to the state prison for the term of ninety-nine years. He will never live to see the day when he will serve his full term, for with his good time deducted, he will have to serve 50 years and 4 months.

If there should be any grumbling on the part of veterans about the pension money running short at some of the agencies, don't blame the present administration. The funds from which the present pensions are being paid, are out of the appropriation made on estimates prepared by a democratic commissioner and passed by a democratic congress. Both knew at the time that the appropriation was too low, but they wanted to pretend to be economical, and so there is a deficit of over five millions of dollars. The democrats in congress are noted for this kind of economy. They have an overweening desire to appear on the false side of all economic questions, and they always get there.

Massachusetts' legislature is still engrossed on the temperance question. Mr. Eldredge, of Chicopee, has introduced a bill providing that anybody found drunk in a public place and making a disturbance shall be escorted home or otherwise taken care of until he has recovered from intoxication. If, however, he should repeat the indiscretion within a year, he is to be sentenced to imprisonment for not less than ninety days nor more than two years. The democratic members are opposing this sort of a measure. They don't want to place a large majority of their party where they can't vote on election day.

Chauncey M. Depew was recently interviewed by one of the republican managers in New York and asked whether he would consent to stand as a candidate for the United States senate to succeed Mr. Everts. Mr. Depew considered the matter carefully for several days and finally said that he had determined to keep out of politics so far as candidacy for office was concerned for the next few years and perhaps permanently. There are too few of Mr. Depew's kind in politics. He is not only a brilliant man but one of the cleanest in all the country.

A Madison dispatch says that "the late Segward A. Orle, of Eau Claire, is reported by the Madison Democrat to have left \$100,000 for the establishment in Madison of a hospital for people who were crippled at birth and for deformed persons. Mr. Orle also leaves a small amount for a hospital at Eau Claire, \$50,000 to his wife, and enough to educate his stepson. Mr. Orle died without signing his will, but it is said that the money has been placed in the hands of three friends, and that his bequest will be carried out."

Probably the best explanation that can be given to the democrats claiming a victory in Oregon, is that they consider themselves in great luck when they are not completely elected out; so that the election of even one man is a great victory for them.

Ben Butterworth should be made secretary of the World's fair. I. is always lively when Ben is around; and besides that his persistent energy and personal activity would make the office of secre-

tary the most attractive place about the establishment.

A saloon keeper at Black River Falls has been fined \$50 for selling a keg of beer without license. He will appeal to the circuit court to test the validity of the local option law. In the appeal the saloon keeper will be hiked out of court.

Uncle Jerry favors Harrison for 1892. The cabinet is unanimously on the side of our worthy secretary of agriculture.

### FIFTY THOUSAND MEET.

Englishmen Protest Against Governmental Compensation to Liquor Dealers. LONDON, June 9.—The temperance advocates, supported by Liberals generally, made a great demonstration Saturday against compensation to liquor dealers. An immense procession, composed of temperance societies and general and radical clubs, passed through the streets to Hyde park, where 50,000 people were assembled.

Speeches were made from half a dozen stands, in which the government was denounced for proposing such a demoralizing measure as that now before parliament, "for the endowment of public houses," as it was generally termed in the speech of Mr. Gladstone.

### ANN ARBOR ATHLETICS.

The Faculty Intends to Allow No More Boxing at the Field-Day Sports.

ANN ARBOR, Mich., June 9.—The university faculty has taken another step in its aggressive policy toward the students. As a result of the lively contest sparring at the field-day sports recently, Farr, Franz and Glidden, the men who entered the ring, have been prohibited from any more contest of the kind.

This, however, is not aimed directly at the students in question, as it is intended that boxing will henceforth be excluded from the list of events at the regular field-day sports. The students are mad at the action because they say it is not the students, but the visiting athletic club men, who gave the punishment. The reason given for the decision is that the measure was necessary owing to the attitude of the press on the subject.

### NARROW ESCAPE OF AN UMPIRE.

Saved by the Police From an Infuriated Mob.

DENVER, Col., June 9.—A crowd of about 1,000 people saw the umpiring over done in Denver in the game of ball between Denver and Minneapolis. Bogg did the work and excited the crowd to such an extent that at the conclusion of the game a mob of the thousands men jumped out of the stand and attempted to dust the plate with his form. The prompt arrival of the police and a number of deputy sheriffs saved Bogg from being beaten to death. Bogg had to be brought to town in a fire marshal's buggy driven at full speed, followed by crowds hurling stones. It is reported that Bogg has left town upon the advice of a few friends.

### LOOKS LIKE CROOKED WORK.

Startling Defects Discovered in San Francisco's New City Building.

SAN FRANCISCO, Cal., June 9.—Mayor Pond has made an investigation as to the soundness of the walls of the new west wing of the new city hall, with the result that in a number of places where the walls were supposed to be of solid brick, four feet thick, they were found at an average depth of eighteen inches to be filled with sand, mortar, broken brick, and rubbish. In the cross wall, in which was a heavy triangular mass of iron and steel, supporting a thirteen foot girder and other lighter girders, the condition was found to be the same, filling having taken the place of solid masonry. A further investigation has been ordered.

### HYDROPHOBIA PATIENTS.

Cases Under Treatment at the Pasteur Institute in New York.

NEW YORK, June 9.—Dr. Paul Giber's latest patient to arrive at the Pasteur institute is one of the severest cases he has had in this country. The patient, a man from northern New York, both of his hands have been terribly mangled and one of his thighs was also badly bitten. He is so badly hurt that the doctors think he may have to take to his bed before the treatment is over. The seven Illinois boys received an inoculation to-day and are doing well.

### FIRE AT JOLIET.

Northwestern Tile Works Wholly Destroyed—Loss \$12,000.

JOLIET, Ill., June 9.—The Northwestern Tile works of this city burned Saturday morning between 1 and 2 o'clock, involving a total loss amounting to \$12,000. The plant was insured for \$8,575. The works were lately purchased for the Asher-Wright concern, now at the prison, but whose contract expires in July.

### American Philological Association.

PHILADELPHIA, Pa., June 9.—The secretary of the American Philological association, Prof. Herbert Weir Smyth of Bryn Mawr college, announces that the twenty-second annual meeting of the association will be held at Norwich, Conn., beginning Tuesday, July 9. Members intending to be present are requested to send their names to H. W. Kent, at Norwich, as soon as possible, and those who propose to read papers or desire to have their papers presented to the association are requested to notify the secretary at their earliest convenience.

### Rained for a Month.

ASHLAND, Wis., June 9.—All the rivers and streams in this vicinity are out of their banks, doing havoc with logging. Several houses were washed away from the Indian village Odanah, nine miles from here, on Bad River. Northern divisions of the Wisconsin Central and Milwaukee, Lake Shore & Western roads are badly washed and the track is shaky in places. Rain has been falling every day since May 9.

### Damage by Storms.

BALTIMORE, Md., June 9.—Reports from the State meteorological show that extensive damage was done by the storm yesterday. At Hagerstown several buildings were unroofed; at Port Deposit a man who had taken shelter under a shed was struck by lightning. He was unconscious for a long time, and on recovery had lost his power of speech.

### Will Buy Chicago Breweries.

LONDON, June 9.—A syndicate has been formed here with a capital of £1,250,000 to acquire possession of the five largest breweries in Chicago.

## BRIDGE JUMPER KILLED.

Burglars Blow a Safe and Set Fire to Chatsworth, Illinois—The Property Destroyed.

### MASKED MEN CAPTURE A DAKOTA MAIL TRAIN.

They Go Through the Express and Baggage Cars, but Fail to Find the Money.

MANPAN, N. D., June 9.—Cavalry and Indian scouts are to-day scouring the country north from Fort Buford and south from Fort Yates for the two desperadoes who held up the east-bound Northern Pacific train twenty-five miles west of this point. A tramp was stealing a ride on the blind baggage end of the mail car was the first to see the robbers. They stepped on to the train and remained quiet, and subsequently he was mistaken for a desperado and marched to the depot by the wily express messenger, who skipped the train and the robbers.

As the train moved away from New Salem two men armed with heavy revolvers and wearing masks boarded the front end of the mail car. By the time the train had run about half a mile they proceeded over the tender into the cab, and the engineer and fireman were confronted by two revolvers. Engineer Kilmarin proceeded to put on brakes, but he was informed that that was not the thing to do, but to go ahead. He obeyed orders and ran ahead, until he observed orders to stop the train. He did so, and at the muzzle of a revolver he obeyed further orders and undid the couplings at the rear of the baggage car. Then he was marched back to the engine and ordered forward. Engine, tender, mail car, express and baggage cars went on about a mile further, leaving seven passenger cars and Pullman coaches behind. When a stop was reached that pleased the robbers the train was stopped and the engineer and the fireman marched to the express car.

But in the meantime Express Messenger Augewine, knowing something was the matter and hearing a shot fired, suspected the condition of things, and he had time enough to carry out a plan that he had thought of before. He opened the small safe, took out a bag containing \$500 and threw it under his mattress, put out the lights and skipped. The desperadoes, chagrined at finding the express messenger missing, made a break for the baggage car. Here they found the baggage man and two brakemen. While one robber kept the engineer and the fireman quiet, the other entered the baggage car to find at a brakeman that just grazed his head. After considerable parleying, satisfied that nobody knew the combination of the safes, one robber held in a line, with arms up, the mail clerk, and the fireman, while with a coal-hammer he demolished the small safe. Nothing was found there. Attempts to get into the large safe were unsuccessful.

A visit was next paid to the mail car. Mail Clerk Sherlock obeyed orders with expedition as he was ordered to rip open the registered mail, all of which was carried off.

### BIG BLAZE AT CHATSWORTH.

Burglars Set Fire to a Bank, Destroying the Business Portion of the Town.

CHATSWORTH, Ill., June 9.—Fire destroyed all but two of the buildings in the main business block of the city early this morning. The flames were discovered in the rear of the banking house of J. E. Brown & Co., the blaze spreading rapidly. Most of the buildings were of wood and burned like tinder, but at opposite corners of the block the Plaiddealer building and the Waller elevator interposed brick walls and prevented the fire from spreading through the remainder of the city. The flames were not subdued until eighteen buildings had been destroyed and many others badly damaged. The loss is considerably over \$90,000.

The theory is that the safe of J. E. Brown & Co. the bankers, was blown open and the building fired by the burglars. The vault door is wide open and all valuable papers and books are surely burned, as the heat was intense where the safe stood. The safe contained over \$15,000 of cash belonging to the bank, besides the contents of the rented deposit boxes. J. C. Fraser, one of the fire ladders, received a dangerous wound while fighting the flames.

### BRIDGE JUMPER KILLED.

Dan Wilcox, of Cincinnati, Makes His Last Leap.

CINCINNATI, June 9.—Dan Wilcox, the bridge jumper, who was awarded a gold medal by the United States government for saving eighteen lives in the great Ohio River flood of 1883, met death in a horrible form Sunday. He accepted the banter of some friends to jump from the Newport railroad bridge to the river a distance of about ninety feet. Wilcox had been drinking hard all day, but at 3 o'clock he leaped from the bridge, arrayed in a suit of swimming trunks. He struck the water full on his stomach, and when taken up by a boat a moment later was found to be bleeding from the nose and mouth. He walked to his home two blocks distant, where he died in terrible agony, half an hour later.

### Crushed by the Cars.

DENVER, May 9.—Robert Metz stepped off a Burlington train while going at the rate of forty-five miles an hour four miles west of Akron, Colo., and was crushed beneath the wheels. The body was shipped to Chicago, where he resided and has relatives.

### Short in His Accounts.

CINCINNATI, Ohio, June 9.—Ben S. Barbour, station agent of the Cincinnati Southern railroad at Hanover, Tenn., has decamped \$2,400 short in his accounts. Most of the money was appropriated from express packages.

### Inter-State League.

### Progress.

It is very important in this age of vast material progress that a remedy be placed up to the hands and to the eyes of the people, acceptable to the stomach and healthy in its nature and effects. Possessing these qualities, Syrup of Figs is the one perfect laxative and most gentle diuretic known.

### ONE WIFE TOO MANY.

A Milwaukee Man Charged with Committing Bigamy.

MILWAUKEE, June 9.—A prominent citizen of this city was married about four months ago to a popular young lady here, but their wedding was kept a secret until two weeks ago. Today a former wife of the groom arrived here from her Western home and tomorrow will institute divorce and maintenance proceedings. She has not decided whether she will prosecute him for bigamy or not. The affair will cause a decided sensation here. The names are withheld so that the erring husband may not escape before the necessary papers are served upon him.

### SEVEN MEN DROWNED.

Their Boat Struck by a Squall and Overturned.

BOSTON, June 9.—A party of eight young men started on a fishing trip today in a small boat down Dorsetshire bay. A squall struck the boat and created a panic. One of the men tipped the boat over and seven were drowned, only one of the party escaped. The following are the names of those who perished: Thomas Troy, Edgar Maloney, James Husband, James Tufts, Albert Labard, John Sullivan, Thomas Tesney.

### SETTLING WITH THE INDIANS.

The Sacs and Foxes Agree to Accept the Government's Terms.

GETTYSBURG, Pa., June 9.—Information by courier is that the Indian Commission has completed the deal with the Sacs and Fox Indians. The tribes agree to accept 150 acres per capita, and \$1.25 per acre for the surplus.

### Opposition to Arthur.

WILKESBARRE, Pa., June 9.—A large meeting of the Brotherhood of Locomotive Engineers was held here yesterday. The session was a spirited one, and it is understood that there is a considerable opposition to Arthur.

### President and Mrs. Harrison.

FORT MONROE, Va., June 9.—The President, with Mrs. Harrison, two grandchildren, and Mrs. Himmick, spent Sunday here. Col. Frank met them and took the President to church. The party returned to the Dispatch and sailed at 5 o'clock for Washington.

### Colored Boy Killed.

DANVILLE, Ill., June 9.—A colored boy named Williams was run over and killed while jumping on a Washburn train.

### Wherever Malaria Exists.

The bilious are its certain prey. In intermittent and remittent fever, dumb ague and ague cake, the liver is always seriously affected and the blood contaminated with bile. One of the chief reasons why Hostetter's Stomach Bitters is such a sure defense against disease, is that it does away with liability to the disease, by removing irregularity of the biliary organs in advance of the arrival of the disease. There is no certain immunity from disease in an endemic or epidemic form, to be secured by the use of the average tonics and antiperiodics. Hostetter's Stomach Bitters succeeds both in preventing and curing. Moreover, it removes every taint of dyspepsia, and restores the system to its normal activity of the kidneys and bladder, and tranquilizes and strengthens the nervous system.

### He Read It All.

It is related that Thomas Carlyle, while on a visit to the provost of Kildare, a worthy elder who conducted family worship, was one morning invited by the provost to take the reading, and he would offer up the prayer himself. Afterward, Carlyle, by accident opened the Bible at the first chapter of the Book of Job. He began this slowly and intelligently, pausing after each clause, as if to meditate on the circumstances and take the whole meaning. On he went, the servants wondering, the provost praying himself. "Even a threatened bankruptcy had better be risked than a threatened life. Besides, a man who is in the unyielding grip of a permanent headache is not really the best judge of his own circumstances. He magnifies and distorts things amazingly. He takes counsel of his fears and abandons his hope and courage altogether. Rest, immediate and sufficient rest, is the sovereign remedy. A fortnight at once may be better than a year six weeks hence."

### Stole a Load of Hay.

For original ideas in the line of theft Walter Johnson, a young man of Springfield, N. J., is head to head. He recently drove to the farm of James S. Worrell, Jr., near Vincennes, stole a load of hay and drove off to market. He is in jail.

### Stake Care of Your Eyes.

Dr. B. Murer, the eminent optician of Detroit, Mich., will visit every town in this country during the winter. Any one suffering with red eyes, or eyes abused by inferior glasses, should not fail to see him. Orders left at the post office will be promptly attended to. No extra charge for examining patients at their homes.

Electric Lights, Fine Park. Band concerts, water mail, trees, flowers and air till you can't rest. All these go to make up our "101 reasons why" Riverview Park and Glen Elia "lay over" any other residence section of the world. Perhaps you may think we are modest in our claims for these additions, but we don't have to be. The additions are not "built that way."

When Joshua Commanded the Sun to Stand Still. He had just heard of Forest Park, and was anxious to see it just before sunset. Have you ever been driving through Forest at this wondrous hour? We were there the other evening, the lines lying loose over the dash, and we were holding each other's hands just as we used to 30 years ago, and Geo. thought we had struck paradise. Did you ever try it? Church societies are nowhere.

A : KALEIDOSCOPE : ARRAY !  
Rather high sounding, but it expresses our situation exactly as regards the almost endless variety of Summer Dress Fabrics.

Go Down South Main. To Clark street, and you are at first entrance to "Riverview" from Main. A few weeks later you can enter this charming addition through CARRINGTON STREET (a new street we are about to open just south of Mr. Parker's house) which will perhaps be the easiest entrance to "Riverview." Fourteen rods farther down Main street you will soon find Valley street all marked, and this, too, will be an easy and delightful drive to Riverview. You will know the next entrance is through Sharon and Dickson streets. This will make four good streets from Main to Riverview Park. In these drives you will have the charm of hill and dale, of groves and of glens. It is a conceded fact that no portion of this city is so delightfully situated. Lots in addition no longer seek buyers, but buyers seek the lots.

Yours very truly, GEO. L. & SARAH H. CARRINGTON.

A Symposium of Facts. The Fidelity sisters' home South Main street, is desirable, is cheap and terms are easy.

The Allen home, South Main street, "is another."

The Hanchett place, 251 South Jackson street, is the best "buyable" home in that ward, it is very desirable every way.

The Jno. G. Saxe place, 114 4th avenue, is "cheaper than dirt" and is just what half a dozen men in town want.

Mr. Hotelling is coming over into the 31 ward and that is why we offer his home, corner of School and Cherry streets low.

Yours very truly, GEO. L. & SARAH H. CARRINGTON.

A Villa Site. Embracing within its limits wooded hills, shady glens, charming views, and easily accessible from all points is not readily found in any city. We have just such an one within 10 miles of P. O., and for beauty there is not another one in Janesville to equal it. We just mention it now; a little later we shall talk about it till you can't rest.

Yours very truly, GEO. L. & SARAH H. CARRINGTON.

Lives there the Man with soul so dead, who never to himself has said, I wish I owned 5, 10, or 20 acres of good land not over 10 minutes drive from my work or business, provided I could own it at a low cost? Well, we guess not.

Yours very truly, GEO. L. & SARAH H. CARRINGTON.

"By the Great Horned Spook." Was a favorite oath of some of the ancient seers. Queer old chaps they. Some of them were called Chap 1, Chap 2, and so on.

If these old fellows were in the R. E. business and were as overworked as "Dave" and we have been for the past two weeks, they were as near justified in swearing as man ever can be. Our mare who can do everything but talk, seemed every night of past week just on the point of making oath that she wouldn't work as hard another week, so Sunday p. m. we started off for Chicago, just for a rest.

A parol of consultation.

The black flag is a sign of piracy.

The red flag is a sign of a vessel to be at quarantine, or is the sign of contagious disease.

A flag at half mast means mourning. Fishing and other vessels return with a flag at half mast to announce the loss or death of some of the men.

If the President of the United States goes aloft the American flag is carried in the bows of his barge or hoisted at the main of the vessel on board of which he is.

The red flag is a sign of defiance, and is often used by revolutionists. In our service it is a mark of danger, and shows a vessel to be receiving or discharging powder.

Flags are used as the signal of rank and command, the officers using them being called flag officers; such flags are square, to distinguish them from other banners.

The white flag is a sign of peace. At a battle parties of both sides often go out to the field to rescue the wounded or bury the dead under the protection of a white flag.

If one neighbor whose judgment you  
trust, engage in an enterprise, you pay  
heed to his advice in proportion as you  
respect his judgment.

We believe his statements in propor-  
tion as he has established a reputation  
for trustworthiness.

If two neighbors of good judgment  
engage in an enterprise, you pay—or  
should pay—double attention to their  
statements.

If three or four reputable, sound, solid  
successful, enterprising merchants in  
your city, or if as many of the leaders in  
the towns around, unite with a common  
approval of judgment, after mature in-  
vestigation, in the very same enterprise,  
you should be satisfied that the enter-  
prise they advocate and offer to join, is  
well worthy at least your investigation.
